Pay respects to Elder's past present and emerging and acknowledge any Aboriginal and or Torres Strait Islander people tuning in to this show and this station and also acknowledged that the language used on this show can often be of a western or Colonial nature and what a pleasure it is to be with you on out of the pan a show covering pansexual issues knowing no boundaries of sex or gender and particularly this week as we are right in the midst of celebrating.

Bisexuality week leading up to celebrate bisexuality day on September the 23rd and I've got to say as a from now on I'll use the term by plus person. Although my personal labels are by and pan what an exciting week it has been so they'll be a big bifocal. I mean by Focus and they'll be puns on the show today. If you want to get in touch with the program. There's all the waves to do it out of the pan 8255 at gmail.com. You can SMS

855 million Melbourne. And actually I think that it's important that we do have a huge celebration of bisexuality and well someone with a possibly a similar catchphrase to me might have an idea about this. Let's just have a quick listen.

No.

Give me a hell. Yeah, give me a hell. Yeah, it's been absolutely amazing this week with the awesomeness of The Stand By Us conference here in Australia and New Zealand and so many

Great things happening and well, I better I'll have some work to do in the in the next track. We opened up with celebrate Dragon covering call in the gang. There might be something more to celebrate because the fabulous roving reporter has jumped on straight onto things and in the last three minutes has said an announcement including the rainbow communities with Martin foliot Dan Andrews, press conference. Well live radio people of all genders and I'd better.

Onto that so that's awesome news. Thanks for that roving. We love interaction get in touch with me. Well, we don't like isolate II isolation. But well there was one good thing to do with it on Friday night was the show put on called the art of by solution featuring Femme Fatale and Randy Roy and others absolutely amazing to have that.

Happen really really cool some amazing performances, which shows you can make your performances work online. I was really impressed and a lot of the sort of performance and pent panel discussions. There was a discussion called panel yesterday. I told you there'd be puns have been recorded and will be uploaded to The Stand By Us YouTube channel in due course, so we want to share the information around and I think that's really excellent as well.

They'll be you if you can't get to a session. I know one thing a couple of sessions to bring you the show today. Seriously, it is really exciting and for someone who's been to so many I have to say so-called lgbti conferences over time where there's been no by specific stuff or there's been biphobia or buyer razor. It is just a tonic. So for by plus people will around the on the on planet Earth. I'm if you can work it into your time zone tune in and if

You are in Another Universe if Voyager has made contact with you. All I can say is watch out get in touch by whatever means of communication connection is so vital and I think the sense of communicate and connect connectivity that's come out of this. All the events already has been awesome. And also yeah roving has said the numbers are content of new cases are falling each day. We're down to 14 today. So we're looking like we're on track for the

Proverbial road map that's something to celebrate we'll celebrate spring yesterday in Melbourne was TimeWise the equinoxes sunrise and sunset at 6:14. So the days are now longer than 12 hours. Gosh, we need some good news. Not denying that it has been an absolute. I don't know how you put this verbally, I mean if I was typing on use the dollar sign % Ki carrot key and key and call that a swear word, but whatever the equivalent is verbally.

It's just been that sort of year. And we do need to hang on to what is good. So very very exciting to have all these things happen and you know, very very important that we can take some good things out of this year in such a horrible sort of year that it has been the thing is I do want to mention of course sadly, you know, there were five deaths. Yes.

And I and that is just you know to all the families in there who are losing people. It's not an easy time and our thoughts are with you. And the thing is that you know where we've still got to keep plugging, but hopefully we can keep things moving the right direction with a sort of keeping the deaths and new.

Cases down sadly all linked to aged care and as someone who will say has an indirect connection to aged Care by goodness. I've got to say that this sort of situation as you know, sort of really brought out the shortcomings of aged Care on so many levels my work of as people would guess is as a diversity educator and doing some interviews back in May for some work. That was well.

Contracted out via the Royal the Royal commission the I thought I'll maybe people nowadays of sort of got it right on gay and lesbian and they're still you know, getting to know the issues of by not really up there on trans and intersex, but people who either carers in the system. I hate it when that happens. Why does that happen when you're

on air come why is the world so disorganized that you've got a sneeze on here?
Anyway, you know sort of you know,

Not necessarily true people who are carers people who are users of the system people who work in the system have found that there's just no awareness and some of the stories I heard I'm bound to secrecy I suppose but yeah, very true now roving come in and said, I've watched a perfume Genius concert last night. He's a queer artist. I'm very happy today. Yes, I am. It really is just such a wonderful thing to have our

A community in Australia and New Zealand come together. Obviously, there's always more you can do but sometimes you've got to stop when you do face negativity and take on the positives and you've been mentioned that Martin Foley mentioned the midsummer Festival. So we'll sort of keep I'll keep trying to keep an eye on that throughout the show and bring the news to you as it happens. So it's so good to be with you on this day last night. I have to say roving I was

Watching a fantastic event called by conic which was really excellent as well. And they're all by performers. Led emceed by The Fabulous Bree was able to go live up in Sydney and be live-streamed around the known internet Universe, which was really cool as well. So it's great to see these things happen. It really is just so exciting to have all these sort of things happening particularly again this time. So hang in there Vic.

I'm victorians in particular Melbourne Ian's and particular queer victorians. It's not been easy. I couldn't resist a dry humid remark in the with one of the stand-up comics in Sydney last night at The Fabulous by chronic event at Giant dorf said was talking about going out tonight clubs and I couldn't resist saying single Melbourne Ian's have forgotten what sex is will probably have to go through classes again or something. I don't know, but seriously, it is really really good to have this event.

And the sense of connectedness for the by plus communities is huge. So yes, I do use an old-fashioned word roving. I'm a happy camper so to speak and I don't mean and the feeling is intense. Although there could be more of that throughout the show. Let's however in the meantime have a break from the puns and just as the weather is warming up. The buyers are awesome. Could we say in a very respectful way hot. Could it be in the words of the 70s?

They are also allowed to break into your phone if they have a reason to do so and what we end up with is a surveillance State what we end up with is multiple government agencies that have legal powers to surveil you when you have not been proven guilty. The underlying tenet of Western Law is that you are innocent until proven guilty. What we're moving to is suspicion is enough to take away rights in order to build a case towards guilt and that's

The legal framework that we agreed to we need to keep radical voices on air subscribe now go to a three-c r dot org dot a you forward slash subscribe or call the Station on 9 4 1983 77

There's kind of a lot of a lot of things that are coming up to the floor at the moment as well particularly in terms of the way that we imagine for example essential work and also sort of essential community life or essential caregiving and how those are those function if we think about sort of the Way That We Are Family often takes very very sort of different forms and very, you know, important and meaningful forms that often don't match the picture of

If heteronormative family life, but how so many of the of the affordances all the restrictions or the kind of the government governmental sort of imagining of the way that we should live and what we need to live and what we need to survive really is shaped around heteronormativity, you know, it's around the family life in the suburb as opposed to many, you know, single individuals who have shared queer family both sexual and Community connections that sustained them the kind of give them give

Them life and give them give them sort of energy and comfort and Safety and Security and support you are listening to through see our community radio a flyby am on digital and online 3cr radical radio.

That's us 3cr 8255 am 3cr Digital 3cr Dot org dot a you and 3cr on-demand out of the pan with Sally first broadcasting noon to 1:00 every Sunday afternoon. Thanks for your company. And yeah, a couple of important announcements are forget time will link back to those and look roving and I are getting a bit sense of telepathy after all these years. I'm roving come in and I was honestly going to do this next let's also recognize the very sad death.

Ruth Ginsburg USA Supreme Court Judge, she was instrumental in passing marriage equality in the USA with her vote and you know, look absolutely hundred percent plus their roving and just an absolute Fighter for decency in a decent way you really tried to put a principles into practice on a day-to-day basis, which I think is so important, you know often we don't sort of have that happen. Whereby we see people who just think diversity and inclusion.

Asian are an outcome there are process in my opinion and she just kept putting it into practice every day. She held herself. So well very sad loss. But the lake as they say the Legacy will live on still trying to find some information about what's been going on there with the situation of you know, sort of the

Actions of queer stuff in today's presser and we'll have to I'll keep tracking that down see if there's updates throughout the rest of the show, but make sure you do and of course just start getting into the head that whilst The Show Goes to air every Sunday from noon to 1 it should be noted at that in two weeks time. We'll be on daylight savings time. So for those

You know sort of around the world in particular in other time zones, and there's a million jokes. We could make about that about some countries. No not better not. You know, I sort of be aware of that but not next week the week after so highlights of the celebrate the stand by us conference. Well the opening ceremony with someone who also does intersectionalities just so well Shiri Eisner who makes many things is a by advocate in the Middle East just a brilliant one and you

And that will be going up on the stand by us YouTube channel, which in as we can just sort out things. There was a few issues on the day with the captioning unfortunately, but we will make sure it goes up with captions in due course and that was he was just amazing and also one of the things that has been so exciting has been also the

Sense of connection with by plus people overseas that's been really awesome that by plus people from a range of countries Singapore USA are a couple that come leap to mind and there have been others including some well-known Advocates which is sort of like, you know, it's I've got all I'm your biggest fan. I've got all your albums or something as they say has just been huge. It's really been such a boost on so many levels and so much.

Action and excitement and Ruth Bader Ginsburg beta became a pop icon as well with the younger generation. Well, it does she do a dance mix. I'm not sure about that. Seriously a very much a wonderful person. So he really has been an enormous week, and there's plenty more to come and want to give that a mention as well as I can go to stand by us. I should always should declare of course that bye.

Sexual Alliance of which I'm a Committee Member is an organizer one of the many organizing organizations organizing stand by us. And the fact that that's happened with it. So little money so little structure and in such a short space of time. Well, there's some by awesomeness which is of course a tautology or something but to bring them both together, but just trying to have a look at the program can't tell a night from a tea without a program as they once said on a Warner Brothers cartoon just flipping through

Through some of the events that are on today at well, you'd have to be multitasking in a few minutes. There's a bit. I think it's sold out. Anyway, the bisexual and polyamorous session on the ad politics of attachment bonding is about to get underway as I talk in about four minutes time. There's bylines a by visibility virtual event at two o'clock Eastern. There's a bit more casual conversation ATS 4 o'clock I buy meat up on with the theme of books.

And then at seven o'clock a theme of gardening so knowing no boundaries of plant life or something. There's also by improv games tonight, which sounds fun at around 8:30

Australian Eastern and then tomorrow we get into some well some thought-provoking stuff content warning for mention of a difficult topic being assault sexual and Reflections on sexual consent and sexual assault in

So in queer means relationships, here's a big one and yours truly is on this panel The Bike plus communities experience of the marriage equality parasite. Sorry play be shied. I mean postal survey one o'clock tomorrow women in relationships with bisexual men and sexual health strategies by and mighty during covid connecting in isolation at three o'clock. I better get my tickets for that one if I can Boulder, here's your Trot yours truly a

It Again by and Pan People for older by and pansexual people at six o'clock and there's also a cooking meet up tomorrow night bye-bye binaries on Tuesday step conned a difficult one to content morning Stand by Your by exploring by plus experiences of violence navigating Support Services play-by-play buyers in sport Addis big discussion group from Australia and New Zealand are white

Group from 7:30 East rallyin Eastern Community organizing and social change conference close on the Wednesday on celebrate by day at 7 at 5:30 and then a celebrate by Day dinner and there are events on next weekend where they can do them in person the Brisbane by Network and also a casual meet up. I think that's in Perth and know there's I'm sorry, the by visibility Day picnic is next Sunday in Perth.

And there's a casual meet up. So lots of happenings going on. It is just very very excite balls to have all this happening. And then what I've got to thank all the great Community media out in Perth star Observer fruity and others who have supported the conference as well. So lots are happening. I think I'd better take a breath and just sort of settle in it. Let's just have a look.

And let's have well, it's got to happen. We've got to have an old favorite on the show. You wouldn't be the same without it. And here it is from Peter and James. You know what it is getting by 3 CR 855 am 3cr Digital 3cr Dot org dot a you and 3cr On Demand out of the pan with Sally.

Buzz

What did with only one got no time to live a lie?

3 C R8 V 5A m3c our Digital 3cr Dot org Dot and 3cr On Demand out of the pan with Sally first broadcasting noon till 1:00 every Sunday afternoon. Thanks for your company. So yep lots going on there and had to play it Peter and James getting by where more than getting by this week it is.

Just so exciting yet. Again. We need some excitement. So we'll share share the multi-gender attracted live around roving come in and said that Ruth Bader Ginsburg's nickname was the notorious RBG. Gosh. My middle name is Lisa. So can I be the notorious SLG I'll go with that and it was a documentary on the ABC last night entitled The Notorious RBG highly recommended that sounds like a fair thing and another

Correspondent, you know sort of has come in and said that Ruth Bader Ginsburg being Jewish according I'm it my I have to do some research on this but the correspondent has said according to Jewish tradition a person who dies on Rosh Hashanah, which began well Friday night Australian time is a person of great righteousness. Well, there you go. We got that one's got itself worked out for sure. So, you know, and that one's pretty

Obvious, so yes long as they say in the Jewish tradition when someone dies long life. Well, you know, there will be a long life in every sense of the word for Ruth Bader Ginsburg. What a hashtag good human. Well, there's been a few other things going on this week in the queer communities Yours Truly subscribed to Rolling Stone magazine and as the two years an old saying not just for the music.

Eric and there was a fantastic article in this I have to actually thank Molina one of our frequent correspondence. We don't have regular correspondence on this show because you're all awesome Rolling Stones addition for September and the cover emerged a few months ago has a fantastic article the trans fight just to get back to the tee for a bit. Nothing like a good cup of tea and on page 54, Australia.

Dark history of denial of identity. Well, that's very very true. Although I'm not really sure about that word. But you know sort of we have sort of report contributions from

Multicultural trans people and also mentions of surgeries needed and sadly some other things as well and what we need so lots that Lots in there a great three page.

Article I will get around to reading the rest of that one inch of that great magazine in due course, so yeah big week for binary Buster's as well and really really good to see what else has been going on. Well, I had the pleasure yesterday as part of my work to be on a panel for a difficult topic, but it's one that needs

Discussion it comes very close to indirectly to the work that I do. It was called The Art of dying queer. Now. This is obviously difficult topic death, you know can bring up difficult issues. But we all know that sadly sometimes people as we call it family of origin is a term that gets used cannot be supportive of their LGBT I loved ones and is someone over time who's been to will save funeral and similar services?

Services where there has been transphobia or biphobia or by Erasure Etc. It's very very horrible. And of course from the transport of view when the unsupportive family take over and you say a past name and pronouns, it's horrible. I have seen a shift over time towards that and I've seen compromises at one funeral where the trans woman came out later in life had been a parent to three children. They work to compromise the oldest

Water sort of spoke up and said look, I loved my debt and love my dad, but I hated all use the name Jennifer because that wasn't the name used and that's fair. You know, their oldest daughter has a right to all her authentic feelings, but you can find a way to just do it. That doesn't pass name anyone and I think that was really well done. So it shows that these are the sort of issues that might need to be organized. One of the issues that came up yesterday is if the client is the person paying you

Is your obligation to them or is it to the deceased will sadly dead people don't have a lot of rights when it comes to this stuff. So the Salette create critical solution a couple of points here. Make sure if you're over 18 that you have people in place power of attorney medical attorney and most of all executor. I know no one wants to think about dying but I think the last I heard it happens to all of us and if you've got a supportive executor who will stand up and be assertive and say no

You can only use the person's current name and pronouns are not passed names and pronouns then you're then you're in a and that's the way to do it. And if you want to have rainbow colored cake or by colored cake and or trans colored cake. I want all my cake and I want my friends to eat it too. Then you can those sorts of things and of course having end not just end-of-life directives. But of course Wills on open until say at least three weeks after a person is deceased. So there needs to be clear instructions.

Given to an Executor and look this is not legal advice. I know there has been one legal case from this in Victoria, but I can't see how it would hurt. If some if the where possible the person reads out the will as well as having all the documented and signed paperwork and the camera on your smartphone and there's going to be a pun pans across to the executor and a witness now that's got to mean something like I don't see how you could really discount that so these

The things you can do to make sure that you're queer Community can celebrate all of their friend and I've got to say sadly. When well, we lost someone too early in the by Community about three years ago through health reasons and on a better note the person sister got in touch with Victorian by communities and said look, we know that this was an important part of x's life and we had a picture of X with a by Banner behind X at a community event.

Vent and when it came up as we do nowadays on the slide show that the the the memorial service, you know, it just helped us remember our friend and it helped clear the grief out. So, you know, it is important that these things happen. So yeah things still happening along and rovings come in and said nice work Millennial. Yes, good Community work. Thank you to all our all the people who are listening in to the show and our

Contributors and remember you can't contribute in and you don't have to be named you can just put a comment under all the electronic means of connection and just say read out the comment but you know sort of No Name just don't mention my name and walk. We'll call you contributor X or if you want to come up with your own name that's is how you want to be acknowledged. That's a really good thing to so yet really awesome that these that

People are thinking about this as well. Alright so much happening on the show today. I'm just needing to regroup again. Let's have another piece of music and well just have a bit of a rage out from the Eagles from their double live album in 1980 with Joe Walsh on lead vocals and well in line with the sort of part by parting theme which is

Played by parties n let's have all night long 3cr 855 am 3cr Digital 3cr Dot org dot EU and 3cr On Demand out of the pan with Sally.

Tricia 855 am 3cr Digital 3cr Dot org dot a you and 3cr on-demand out of the pan with Sally first broadcasting noon till 1:00 every Sunday afternoon. Thanks for your company and prior to the messages. We heard from the Eagles all night long from the Eagles Live double album of 1981. Although recorded in 1980 Joe Walsh on lead vocals with the monster tones by day mild-mannered Roadies by night.

An amazing backing vocalist been there you go. See people are multi-talented as we as we all are really as much as we like to say that bi and trans and queer people can do lots of things everyone can but you just got to overcome your limitations. That sounds like a Dirty Harry line good person always knows their limitations, but you can overcome them message in from woven wool Porter. Hope Molina is okay. Yes. Look Molina is okay.

I'm driving. I did hear from her during the week. But she said she wanted to focus on some on the ground support for people in these times which just shows you what an awesome human Molina is as part of the out of the pan Ali out of the pan family or something like that, which does remind me as I look for something from Molina sent me

during the week here in and here it is that there is a pom competition the best pondering the stand bias conference will win a prize honeymoon.

Hundred-dollar hairs and hyenas voucher and yeah, the article Molina sent me is one about Ricky Coghlan and an Australian trans athlete who is sort of went through recently. Okay and got good support has said one of the Tryin is trans Pioneer Martin Delaney when she was able to play soccer roundball football. Well game Etc on a women's team in South yarra. See ya.

It just shows what a beat up. This whole Sports debate is now that the fundamentalist Christians who admitted candidate leave that the bathroom debate was quote Akin fabrication, they concocted to whip up emotion, and now trying to whip up in motion on trans women in sport, but yeah Molina is okay is so and that message came through to me on oh yesterday even so there you go - all right, just doing other stuff but

That's the sort of concern and love that is helping keep our communities together in these times. So really awesome to have that and a couple of weeks it will be mental health week and I'll be having the fabulous Simon may not on the show and also playing a couple of tracks of Simon's so that's something to look forward to there's just so much going on at the moment even in all these times and one of the things that has emerged says the 55 year old.

Halt I'm trying to pretend to be high-tech is that look all seriousness? My approach to technology is I'm neither geek nor Luddite. I try to use it effectively to achieve my AIMS in life. So I think that one of the things that has emerged from this is the idea that in when we get back to say an unrestricted life if I can put it that way or a witch and the moment we have to go through what we are going through that I think

Neurology and in person will merge better. We'll be able to think more about people with physical disabilities who can't get out we'll be able to think more about people say with anxiety issues who don't like crowds or neuro processing situations and truly be inclusive. So we will be able to bring all of it together and I think that's so important that we are we can just start thinking about that learning now and I mean, well the

The Stand By Us conference again declaring the interest but also declaring my happy excitement is I think an example of that and what it's done the you know, sort of How It's brought people together is enormous and I think there's going to be great things emerging from it and it is awesome that Molina has been in touch for sure roving. Thank you for staying in touch. We all need connection at this time, including yours truly so

Other things coming up now. I did want to mention something in amongst all the jaw all the happiness. There is a need a big issue emerging at the moment, which I'm going to go into perhaps a little more in a future program and the fabulous Allison and Debbie who run amongst many things Freedom Socialist Party have, you know have a webinar on neck or Wednesday week? I beg your pardon from the 30th of September from 7 to 8. So I'll just bring that to your attention now.

About why police increased police powers are not covid safe. And as they've said here quote covid-19 is a Health crisis to bring it under control. Well resource Public Health measures based on science required instead. We are seeing a Sinister growth in police powers and a selective repression of civil liberties that defy any public health logic. I mean police with new powers is also very dangerous for those sections of the communities traditionally subjected to over policing join us for the launch of a new state.

Mint advocating the urgency of building covid safe communities by strengthening social solidarity not increasing Law and Order measures. Now look, I think that's a pretty reasonable comment. And now we've just seen so many double standards on this in the situation over the period of covid and how people have played on a commercial media and right-wingers saying that the black lives matter protests spread covid-19 was no evidence of that whatsoever. But now we've got all these

So people going on about individual freedom and there could be this happening at this time talking about sort of, you know, sort of talking about their freedom just because they want it and yeah, they have had to be cracked down on but you know, it's sort of very quickly during the week. We've had a number of situations involving mental people with experiencing mental injury issues and police responses, and it was very

Disconcerting to see the police Union so we'll maybe we shouldn't be approaching people with mental health issues know you learn how to do it and one of our regular

contributors to the program Kayleen reminded me that they said similar things about trans people in the 90s police. You've got to learn to deal with things on the merits and the police Union is blocking our anti-discrimination laws if that's a real problematic approach and I think it's time the police Union worked a little more cooperatively and warmly with

I'm diversity rather than the sort of Macho attitudes. It appears. We are seeing and that's a debate for a very big debate for another time and also brings up issues of do you achieve change from the inside or the outside but or as well, there's an old saying which I thought J r-- Ewing made famous keep your friends close, but your enemies closer, who knows what I don't want to see the police Union has enemies but they're going to have to start working a little more cooperatively and warmly with

Diversity in my opinion but that is a note that we have to consider will consider it more in more in detail down the track, but for the rest of the next few days enjoy celebrate by week and all the puns are reminded that there is a competition for event for the best pun during standby US events and a hint there could be a Pun song at these closing ceremony. Mmm. In the meantime, you can have a bit of fun part.

Long to this song by cultures all with all total respect and Moss and Cold Chisel. I'll take it out. I've renamed this song from a / certain snake to buy pan. Thanks for tuning in to out of the pan on Sally Goldner. Catch you next week.
