Thanks for your company 3cr proudly broadcasts from the lands of the orangery people of the kulin nation, and we pay respects to Elder's past present and emerging and acknowledge any

Aboriginal and Torres Strait Islander people tuning in to the show today or via the means after the original broadcast from noon till 1:00 every Sunday. And of course out of the pan is a show covering pansexual issues knowing no boundaries of sex or gender. I am your host Sally Gardner I use the pronoun she her and identify as female as is my right. Well, that's a good lead into this.

So today there's lots of news to cover not sure we'll get through it or it's been a busy couple of weeks. First of all, I want to congratulate the Fantastic crew from who gave these special slot while slutwalk broadcast last week a fantastic piece of inclusive radio that goes right to the heart of 3C are and what we do well done to all who were involved prepared gave their sort of sort of thoughts on the day.

We'll look forward to when we can do it in person. It's looking pretty likely next year. So much needed other things to talk about on the show today will linking to that. We are in the middle of 16 days of ending gender. I'm talking about gender based violence. We've also got a look at the debates about the conversion therapy laws coming that are doing

in Victor arm have been introduced into the Victorian Parliament all sorts of ups and downs there Mardi Gras.

Voted 56% 44 in favor of keeping police at Pride March pros and cons are acknowledging that can be an emotive issue plenty to talk about the Globe awards were Friday night, which is why I opened up with face the day. It was a slightly foggy Sally yesterday and of course the angels and that was originally off. Well, I think that goes way back to about think there are no secrets album, but also was on greatest hits

Volume 2 may they be Rockin and Rollin forever, but clearly the news for Elliot page disguising that they are a trans man is just one of the good news stories of the week. And in order year that's been very much void of good news a wonderful thing. Let's have a chat about this and what it means and welcome your thoughts. There's lots of ways you can give your thoughts on anything on the show.

This story or anything else you can e-mail out of the pane 255 at gmail.com. You can look for the posts on Facebook my page Sally golden the.com or out of the pan 3cr 855 am Melbourne. You can also SMS on the following number which is over six one four five six, seven five one two,

Five or you can tweet at sell gold said so and remember that's the bottom line and always remember opinions on the show are my own there may be some triggering content in some of the issues today. So if there is I'm you can call Q Life which includes switchboard in Victoria and Tasmania on 1 800 1845 to 7 and we may also discuss Family Violence in the with respect. Number one eight hundred five four two eight four.

R7 but yes coming back to this wonderful news. Well, I have to admit said the 55 year old who remembers these nice shows like Gilligan's Island. I had not really heard of the Umbrella Academy. Let's talk about that first. It said in a universe where 43 women around the world give birth simultaneously on October 1 1989 despite not one of them showing any pregnancy seven of the children are adopted by a billionaire.

I'm turning into a superhero team that he calls the Umbrella Academy. He gives the children numbers rather than an ounce, but they are named by their robot mother and there's all sorts of things going on here. Now. Apparently the superheroes are far from

perfect, which is sort of nothing new Superman wasn't perfect and Spider-Man wasn't perfect how he

Webs off the sky is beyond me. But anyway, seriously, it sounds like a fun show but the critical Factor here is Elliot page coming out and there's been so many good articles on this throughout the week one here from as much as it's not always the case the what's now called Nine media by Louise Rouge and Ike so Elliot page and also played in

Record do know the his LEDs 33 which is, you know, sort of a factor. I want to come back to inspired by the trans Community who was Cecily ceaselessly working to make this world a more inclusive and compassionate Place overwhelmingly, people are trying to do that. So what happened during the week Elliot announced he was transgender. I'm trans my pronouns. Are he they and my name is Elliot. I feel lucky to be writing this to

Be here to arrived at this place in my life statement is also said that Elliott was profoundly felt profoundly happy but was also quite scared of the invasiveness the hate the jokes and the violence that we're sure to come. Yes, sadly true and paged content warning transphobic murders just for a few seconds mentioned there of 40 trans people murdered in the USA this year in a sadly, of course trans day of remembrance 350 in the

You covered by that and he vowed not to stay silent in the face of any attack on trans. People should be noted that trans media star Laverne Cox sadly faced some attacks, or she and a friend in the last couple of weeks as well. So whether you're famous or not doesn't stop you being the target of some sort of abuse page has always been vocal as a queer activist came out of gay.

You know sort of explored LGBT our culture's a few years ago and had a crack it other things as well sort of criticize someone for going to Hillsong which Pages words and these are Pages words infamously anti-lgbt IQ. Well largely. Yes acknowledging some people are trying to work from the inside on that a lot of support for Elliot. There's been also other articles

I saw one written by 13 year old non-binary person about what it means to them. And so let's try to have a look at that and what it means 33 yours truly didn't come out until 29 in 1965. And I think that's the thing in itself that people even though they're now there is

greater visibility. It's still can be a challenge to move past some of the internalized Prejudice the fear all those are valid emotions and feelings and be yourself.

We are seeing lots of people come out younger and that's really really important that that is happening. So, that's really welcome. And I think needs, you know, a huge thing. We still here have lots of older trans and gender diverse people not being able to be more themselves if whether they are totally themselves at all. So that's important that we are seeing younger people coming out because it does lots of things for the younger people themselves.

If they've got less stuff to work through afterwards, you know and do what none of us in regardless of gender identity or sexuality ever stop working through our stuff. But the do we ever get to 100% authenticity? I don't know and that's a philosophical debate that could take up all of a hundred and sixty odd hours a week of three CIA has programming, but we can keep working at it and keep trying to sort of be the best we can be.

But the page that I wanted to quote by Rebecca bruised half for The Enquirer in acquirer. That's an eye as opposed to the National Enquirer. God forbid know Elliot page is coming out means to me as a thirteen-year-old trans activist. And so and you know sort of he changed according to this 13 year old change the world for the better just by sharing his identity.

Publicly, I want to come back to he's as well this 13 year old transition five and a half years ago, which is still a sign of Awesomeness to me and I want to say that as a middle getting towards the senior cohort of trans. This is a wonderful thing. This is awesome that you know, and I just to me seeing stories like Elliott page like the article I'm quoting here from you know from Rebecca when I see other younger people The Fabulous Navarro's is in

Whose new book is on the way? If not out already Georgie Stone. Even McDonald many many others Isabel Langley. This is just awesome for people at me to see we didn't go through everything for nothing. It's also going to come back to that. What's probably cheesing off those who would have different very different views on trans? Because they know they're losing and to quote Linda McMahon from the you know, the higher power of eel segment. That's really unfortunate end.

There's your obligatory wrestling quote for the day. So now sort of Rebecca quite Jazz Jennings who of course is awesome. And so Elliot Pages coming out matters to Rebecca, the the our thirteen-year-old writer here Elliot has a platform bigger than any I could imagine reaching millions of people. Well, you're reaching millions of people. You're somewhere in America Rebecca in this wacky 55 year old. I was Pat choking a pansexual is

Eating your article, but thanks to Elliott more kids will know they're not alone more kids will see Bright Beautiful possibilities for themselves more people will learn what it means to be trans and have a positive example to go with it and more people will be inspired to be sharp as the fullest version of yourselves. Well infinite percent agreement there without question just absolutely Sensational that that is the case but there is an angle here that perhaps hasn't been covered and what this means as much as I know.

This is an interesting one. I mean I am not a cop. I'm a trans woman to use my own label on someone assigned male who identifies as female in simple words, but what does this mean for Trans men? So often our trans Brothers do not get the recognition visibility affirmation acclamation that they so truly deserve and you know, it's been a very invisible Road at times for Trans men. I know as an educator in the work that I do when we're trying

And you know people maybe are not sure of the issues surrounding all of trans people people can name lots of trans women of various age cohorts. We could say sometimes for better or worse, but the names usually flow and then we asked for some trans men and most often nowadays from most people we will get now it's sort of ishares child. Yeah. That's right. Sonny and Cher's child Chaz Bono and it's really good when they

Do that because you know, that means if I had to give more clues I'd have to do karaoke of I Got You Babe and that's not a good thing. But seriously, the thing is people are aware of Chaz Bono sometimes if it's a slightly more knowledgeable rainbow setting they've heard of Buck Angel others have heard of Eddie years a fabulous trans men and you know who does great work in a couple of areas are writer too. I think there's a

Second another second book coming and yes, I will get to that book of mine one day when I went at Slaughter and can afford to take the time to do it. Seriously Gamble and

responsibilities with responsibility. But seriously, Eddie also does radio on what I an organization that I'm proud to mention on this community radio station the ABC presents classical music as well. And if I can be a little self-indulgent, I've had the honor and privilege to meet him. He has to use the phrase a gentleman and a scholar.

Every census of thoughts words. So yeah, but then it sort of begins to Peter out after that. I was presenting a training session on Thursday. I was actually my first one in person for nine months, which is incredibly welcome and good to be eaten and boot my drive up to Emerald just to digress. I'm doing a Ronnie Corbett here. This reminds me of a Funny Story. I drove up to Emerald to do the deliver the session and it was like going on one of those meditations.

Where you drive through the country and it's like I don't know you're driving down a Country Lane. Please don't fall asleep. If you're driving seriously coming back on topic that reminds me of the joke. I was going to tell you and solid joke it is wonderful to see transmen visibility. It's just something we need so much of which we need so much and you know, I think that this is overwhelmingly being a very very welcome announcement that has come out so wishing Elliot

Every fabulousness for your future, you know and every success and as a few articles of mentioned in earlier times will say more. I think it's fair to say lesbian gay and to some extent bisexual, you know actors in Hollywood in particular couldn't be themselves because they would have faced extreme prejudice. Rock Hudson is one who comes to mind, of course, possibly James

Dean is someone who from all reports was by all these things. So to have someone come out at 33 who is in this way is a wonderful thing. And yeah, all I can say l it is I hope I meet you one day and when it's safe to do so give you a big hug because in the words of the WWE Universe, you are awesome clap clap clap clap and all that sort of thing. So it is incredibly welcome and also just had a mess.

Come in on the spot from Milena good to have you back listening live Millennia. We've missed you. But it's good to have you back. You've been doing good work the email readeth? I had quote. I have seen some great documentaries Elliott has created and directed on SBS check them out as well good on your SBS another great media Outlet also indicates pop culture plays a significant role in changing and challenging the status

quo beside despite all the wonderful activism celebrities For Better or Worse have a huge platform and can use their status for Goodwill. Look I

Agree with that one all this time. Stop quoting there for a second there. It sells to reviews your privilege for good and not evil purposes back pain to re-quote Molina again. I think it's brilliant glad to be back with such great news. The vo is also on Clementine Ford's podcast this week as well. There's some sort of dynamos for sure for sure for sure for sure. So yeah some good news this week much needed in this year of you know, so

So much Challenge and who knows maybe we just arcing least. I'll use the phrase and extreme Watermark Biden being elected Kamala Harris putting pronouns in a Twitter file profile. These are not big, you know, then they're small steps, but they're part of a long journey. What is it a journey of a Thousand Miles begins with a single step. I think someone said that this is what we need. So yeah very very much.

Much welcome. So, yep, there's some good news, but there's to just get us off onto a role, but it actually will link into some of the things I want to talk about which maybe not so good in the next segments noting the headline when I picked up the Sunday age today in that there's going to be some obvious push back against the Victorian government's proposed conferred conversion therapy bill, for example, so anyway, let's get

Sort of let's enjoy the good news. Once again. Well done Elliott wish you every happiness. In the meantime. Let's have a listen to a song that well. It's an interesting one by a singer called dar dar Williams, which well, there's been all sorts of interpretations of this song, but I'll tell you about how Darwin wrote it and what it meant to die when after we hear the track,

Back when I was a boy 3 C R8 V 5A m3c our Digital 3cr Dot org dot a you and 3cr on-demand out of the pan with Sally a world forget when Peter Pan came to my house took my hand. I said, I was a boy. I'm glad he did in.

I learned to fly. I learned in fate. I lived a whole life in one night. We saved each other's lives that are the Pirates deck and I remember that night when leaving a late night with some friends and I hear somebody tell me.

Maybe someone should help me.

We need to find a nice man to walk because when I was a boy, I scared the pants off of my mom climbed what I could climb above and I don't know how I survived. I guess I knew the tricks that all boys knew then you can walk me.

Because I was a kid that you would like just a small boy on her bike riding topless yeah I never care to my neighbor came outside to say get your

Your shirt I said no way it's the last time I am not breaking any now I'm in this clothing store and the sign says his more more than steak means more to see more for than that more for me that can help me climb a tree when I was a boy see that picture that was me resting shouldn't us TD

And I know things are gonna change they got pills to sell they got him plans to put in they got in plans to remove but

Like the woods but I would agree. It's a secret. I can keep safe when I'm tired step when I'm being good to go. I've had a lonesome of hold a conversation Finds Its way to catching fireflies out in the back yard, and so it till the minute.

The life they lead and I say no your Top Gun. I have lost Ed you have what he says? Oh, no. No, no can't you see when I was a girl my mom and I we always talked I picked flowers everywhere that I will

And I could always cry now even when I'm alone. I seldom do

And I lost but hey and you look just like me. I was just like you.

Indeed 3C are rolling along no to have to offer regret that I was hoping to have a guest in but unfortunately due to some personal circumstances not able to join me today, but hopefully we'll try to squeak in in sometime in the future. I suppose. We now have to get to the point where the mention that the last show for. The year will be in two weeks time on the 20th of December. So today the 13th and the 20th, and then we'll call it a year.

And damn right we should too. What a year blah, blah blah libel libel libel book. What is it? There's today is the 6th. My mathematics tells me that there's around 25 and a half days of the year to go. I'm not counting. Seriously. I'm not yes. I am and about a seven and a half the other billion other people are too but I do think there is Reason for Hope given that we keep seeing so many the progress on all the various vaccines as well.

Well, well lots of linkages, you know sort of Eden the in this how this show is planned planned. Sorry, actually, that's not true. I wouldn't do such a thing. It's show being out of the pan or show covering pansexual issues. Yeah, sort of well gender-based violence. Well is suppressing someone's gender identity in any way a form of gender violence. It could be argued that it is and this links into the debate which for those

To buy the hopefully recycled newspapers. Well, that's the news might be recycled in some of them. But some of it is New Year's but the paper is hopefully recycled today starting on the front page of the Sunday H here in Melbourne. There's converter these a headline which reads I will quote the headline conversion laws in inverted commas threat and inverted commas to related to religious freedoms end for quote of the headline. And I think I just need to add it after that sick or very big and very

Voted commas. Of course, the various elements of religion have spat the dummy that they're not getting their own way. Not just as this article says from the religious, right but from so-called mainstream churches with Melbourne's Catholic Archbishop Peter common, solely telling the Sunday age who I prayed to how I pray what I pray for most particularly who I pray with is not of concern to any government. Maybe it's not it's of concern to lgbti people and

I haven't read the whole bill yet do have some concerns with the proposed change to the definition of gender identity, which I think could be tightened up and hopefully they'll be some Community consultation on this and it's disappointing that there wasn't before it was come out. But overall the gist of the bill as a is very very positive. It is as some given enough space to the opponent's those who are supporting the bill say that the gist of it is world-leading and that's what we need. And the thing is it's not very well to talk about

About freedom of religion and you have that in your church. But when you are outside your church, including providing so-called social services or counseling you are not in your church and you don't have a right to damage other people and then leave the government to pick up the pieces. If you want to do conversion therapy, then you can pay for people who have been damaged by it to stay on welfare and religion religious types and what I think I've seen this year and this is where there's so many linkages. Is that that

That the Andrews government has stood up to bullshit and I will use that word and I don't use language that often that strong very often from the father of the murder. The murder media in particular is frankly very very welcome. And what it said is you don't have to be intimidated by these people and I don't think we ever should be maybe in the time passed we have maybe there are some advocates in our community who would play nice to people who would oppress us and also sell out those further.

On the train in the name of so-called pragmatism. Well, as I always say pragmatism is murder of the most vulnerable. We are within a day of the anniversary of marriage equality passing Federal Parliament, three years ago. And of course trans people in particular, but many other groups by plus who for whom I can speak others who I have done identify with but many I know who feel this way intersex people of color Aboriginal

and Torres Strait Islander quiz felt very sold out by how the yes campaign did this. So this time we stand firm

And frankly that all these religious people have to remember that religious every man. Everyone for that matter freedom is balanced by responsibility and you can't just do what you want damage other people and throw them away and unfortunately conversion therapy does that I've said many times publicly that I went through an element of conversion therapy in the darkest period of my life at the start of 1995.

I put my trust in a psychiatrist who was taking this ridiculous psychoanalytical approach including you first remember this when you were X years old what happened then well, nothing happened. So obviously just becoming aware of myself. There's probably some youth phobia in this as well that young people can't think for themselves for 17 years and 364 days says me with sarcastic tongue in one count in one cheek and coming out the other ear, but then you know on their 18th birthday they can no one.

Of any age should be subjected to conversion therapy and if churches and any religious institution want to be seen as a responsible part of society rather than self-entitled then they have no opposition with this bill or they need to get behind it. But what is important here quoting the Sunday age and the continuation on page 10 in the paper version is quote in another significant move. The Family Violence act will be amended that suppressing or changing a family sexuality or gender identity.

Identity is a form of domestic violence empowering people to take action against their relatives the regime governing personal safety intervention orders will be strengthened to prevent harassment on that basis end quote. Now, this is incredibly welcome because you can't suppress someone's gender identity and whilst not the intention of the bill. It puts a big sort of sorry no sign up in front of someone like Mark Latham all those

Still trying to push these so-called religious freedom in the equivalent religious freedom bill in federal Parliament. So you've got great legislation in Victoria leading the way along with the ACT. He's done good things as well and many lgbtiq A+ issues, but also sort of saying hey the nonsense that people like Mark Latham put up in New South Wales and the most of the social conservative liberal party, including our gender whisper a prime minister who's never publicly.

Recanted those beliefs are new being opposed. Now. The liberal party is undecided on its stance as to whether allow it to allow conscience vote Liberal Party and conscience vote. Some people might say do those words go in the same sentence. I'm not so sure but you know, I'm Shadow Attorney General Ed Ed Donahue is called for the government to delay debate until next year to give MPS time to assess the details.

That's fair enough. It was only introduced in last week and we are getting near the end of a calendar year. So mrs. Hennessey says the change is strike the right balance between protecting lgbti people and respecting freedom of speech and religion and survivors agree. And as Nathan despot who on better get on the show at some point who does awesome work in lots of areas life of said and I'm quoting the age and in quote marks if asking people to refrain from this kind of harmful,

Otis is somehow the biggest threat to religious freedom than it is even more evidence of why this bill is needed end quote Nathan despot on behalf of the Brave Network. Well, I would agree with that. This is where this I've said this so many times this ridiculous debate about individual Freedom goes too far because people did not think about responsibility to others. So really really important that we support. This bill also has to be refined as I say the some of the wording in the

Definition of trans needs tightening up. There's I think that we use of the word preference which is certainly not appropriate. So yeah lots to do but it is a form of gender-based violence to suppress someone's trans and gender identity and it's sexuality based violence to repressed sexuality in any way. So let's have a world where everyone everyone can be their authentic self without penalty be treated on their merits treated with respect and not put anyone down for any aspect of whatever you might.

It called gender body and although not relevant in the conversion therapy issue because intersex is not about a sense of self, but it's about sex characteristics which is slightly different. We respect sex characteristics and bodies of all sorts of shapes sizes and everything as well messages in roving reporter. Hey roving great news about Elliot glad Millennia is back. Hello 3C our community. You are part of my little Community glad Millennia is back and I saw her letter in the age last week as well. Yes. Molina is a prolific letter.

Writer doing Molina's bit for the fight. Biden was also the first American President to mention the word transgender in his victory speech are absolutely so so it's a great sign to set that sense of visibility affirmation and inclusion Sarah McBride in the Senate senior trans people. Hopefully, they'll be sort of some start back towards some common sense in America and that will influence the world and you're enjoying the show. Thanks roving. It is good to be with everyone today.

Yeah, and the other message from roaming as the t is the fourth letter in LGBT. Sometimes there's a pecking order and what's important for the community and we have empathy for each other world you long long-suffering listeners who put up with my World Wrestling Entertainment jokes, and also my bad choice of classic rock music, sometimes know that one of the other things that I long you've been long-suffering about is my comments on lateral hostility. It does seem to be turning a corner.

Some of the hardcore power institutions who had better not name nor this sort of this podcast will be ripped down not the first time that that might have happened. No still need to be challenged. But I think more and more at the Grassroots. We're seeing this and it's a pact program today still got to talk about the Mardi Gras police debate and possibly also Another World Wrestling Entertainment reference. We'll see if we can squeeze it all in you know, I see

Of but there are some institutions in our own communities as well as those in the so-called broader community that need changing not so broad churches. So to speak and rovings responded. Yes, indeed the freedom Boy comes to mind along with the ideal called a logical right wing in the party. Yes individual freedom and the occasional tokenistic mention of responsibility without people taking it. Mmm and I have had an email in firmly. No go Sally. Sorry to hear that.

Happened to you. Yeah, look it was difficult and it was at a very challenging time where I didn't have support but you know, look we're now it's getting or getting there now without question and I also have just remember to check in on Tweeter for any messages there as well. So yeah, look it wasn't easy Molina, but thankfully if I thought so I had something nice this year the person who saved my life at that time who came out.

I'm saying person which keeps it down identified as another member of the lgbti community was a huge a lie. I've actually reconnected with that person after a very long absence during the year and missed them. So, you know life does come around now what's Molina said here David Davis said yesterday on well, the all words that other guy's station that he doesn't believe in conversion therapy yet was very vague about his party's Fringe members on the issue has taken to task.

Scott on the radio and Fiona padded pattern suggested a conscience vote on the matter as well. It's just plain bigotry. Well, I think there needs to be a conscience vote from the liberal party. But of course if the labor party and enough members of the Upper House supported and it is highly likely that you would have the support of the greens and Andy medic for starters. Now, I'm not going to presume Fiona patterns sort of approach or anyone elses, but it just needs one of that cross bench and some Upper House liberals, and it's

Through assuming labor both as a party but your last words on conversion therapy. Well in my personal opinion as is everything I'm saying this show quote. It's just plain bigotry. Yes, I would agree and look David Davis. I remember at the and Molina also says hi to roving reporter. And yeah, look David Davis in debates leading up to the 2018 state election after the

Or in Parliament rejected the first round of attempted at sort of birth certificate reform said all politics is a tough game. You're playing politics David. Some of us are caring about human lives and maybe there's a few people in fairness in our own sort of lgbti communities who need to start thinking in more human terms rather than coldly political or legalistic terms and get a full picture going just my thoughts on the issue.

All right. Let's have a breather. Let's have some music gosh. It is so much news. We can cover today. I'm not really sure where to start first. But let's have a listen in the meantime to Ian moss on the from the matchbook 30th Anniversary Special double CD set, which has the original CD plus some live tracks from Asia from his solo career and choose all's who are named in the Rolling Stones top 50 bands in the issue that I got this week. Thanks for suggesting Isis.

Right to wrong Stone Blended really enjoying that and will attract that could sum up Melbourne's weather a little for the next few days and his part of not quite Four Seasons

in one day. No, it's not crowded house. It's even more subtract for that was originally on his first solo album matchbook. Here's the live version. Mr. Rane 3cr 855 am 3cr Digital 3cr Dot org dot EU and 3cr On Demand out of the pan with Sally.

Indeed working collectively and things might change. Well, they could what a come back to that in a second and we'll talk about these surveillance State as well. Goodness. Gracious me. Well, I wanted to talk just very quickly. It is multiple references to World Wrestling Entertainment today because during the week we lost a great star of sports entertainment / professional wrestling Pat Patterson new might say

What does professional wrestling have to do with this show will today it definitely does because Pat Patterson is was one of the first gay stars in wrestling. He identified as a gay male. He was it was one of those so-called in inverted commas open Secrets for some time, but he came out publicly at the age of 73 on Legends House a show on the WWE Network in 2013. And

I've got huge support from Wrestling Legends like Jimmy the mouth of the South Heart Hacksaw Jim Duggan. Whoo. No, no that's got to get my wounds right there. Whoo is Ric Flair Woo is sorry Pat data Jim Duggan and many others. So I'm sorry like I did wrestling references. It's what I do. Anyway, seriously sort of it was sort of

Yeah, very very important and really really important to him. His longtime partner was Louis dondero who they were together for 40 years and dondero died of a heart attack on well 28 June Stone toward a 1998 the same night as a WWE pay-per-view King of the Ring. So he provided a lot of visibility for LGBT stars. There are now lgbti Stars.

It's out or rest and people in wrestling sort of everywhere and sadly Pat died of liver failure in Miami on December the 2nd and there's by stars like pipe and Evan who came out on celebrate by day last year. We have Nyla Rose in all elite wrestling and I'm going to do one more wrestling digression The Stig act turned up on W on all Elite this week. It's a big surprise neither Rosa.

Friends wrestler and lots of other people who went before Alicia Fox and we want to acknowledge the late Chris kanyon a gay wrestler as well. But it is really good to see more people being out and the fact that I'm Triple H the sort of one of the big head honchos Paul Levesque sometimes notes Helm Hunter Hearst Helmsley an old Helmsley acknowledged that Patterson was gay in his post on Twitter at the time of the announcement. So,

Really important that these conversations happen messages that are in Molina said, I can't believe people read my letters like roving. Well, some of us are does it initiate changing? Yes, it does. You've got to push Molina, you know it is that old saying it takes a lot of small drops to make up an ocean you do your bed. I hopefully give some people some connection on radio things that I do all the rest of it. So every bit makes a difference.

And roving has popped in its nasty to play politics with people's lives. Yes. We've seen governments do that on numerous occasions this year. Yeah. Wanted to talk about that and why very quickly it now seems that the Australian Defence Force have admitted they're not equipped to handle Hotel quarantine, but four months, the murder media was kept saying the Andrews government should have had the Defense Forces in hotel quarantine. Gee, where's that we wonder what the response to that is going to be. Hmm. So this is why you

Just got to take no nonsense and take a very assertive line and set boundaries against nonsense and I hope it happens on the so called the conversion practices Bill rovings.

Also said great to see more prominent journals like British Patricia karvelas getting involved in the community being answers an ambassador for chill out next year and also got to congratulate Tessa holiday pay by and non-binary person who is on the board of chill out and was elected to Hepburn sure as a counselor. Got to get Tessa on the show.

I'm soon as well. So by God, there's all these little signs and this is where to Molina and anyone else out there who struggles keep going and I put this out there. I'm always happy to have a coffee or a zoom coffee with anyone and be a shoulder to cry on a battery cable songs. I'm up for it as well. So very quickly and it doesn't have enough time really to give this Justice yesterday at the Mardi Gras annual general meeting. There was a vote about continuing the police presence at

I'd March and it seemeth so to speak Earth that the vote was fifty six percent in favor of keeping police at Pride March and 44 percent against which is a big shift in the direction of getting the police away from Pride March in compared to last year. Now the results of the Board elections haven't been announced as yet but you know sort of the fact that if that's the vote on that issue.

You then that shows there must be some progress. And so there's an institution that hopefully finally might have to move itself into the 21st century on so many issues and be a little more aware of its privileged very quickly declaring my interest as a judge in the Globe awards. Congratulation to all the Globe Award winners and to the host it was and I've got to say many things it was the most well-run online event. I've been to there was not a technical hitch. See quiz can do all sorts of things. Very very well run.

And lots of fun lots of great diverse entertainment, but lots of great Award winners in this year. Congratulations to the team from trans demic who we interviewed earlier this year who got media award lots of great work being done by Bowie and Zay who run Phyllis movement Collective which looks at body and gender and non-binding in ways beyond the binary so to speak but it all the winners were great and lgbti person of the year Catherine Barrett founder of the kindness pandemic showing that lgbtiq a plus people.

And allies can go beyond their own communities and do so much for people everywhere and particularly needed this year and get a full list of winners on Globes website and social media accounts and they're looking to name change the name to Globe Victoria.

So lots going on in the community hard to keep on track of it all and again in regrets that I couldn't get someone in to talk about gender based violence. Hopefully try to clear that up in the last couple of shows of the Year. Take it out today with Emma.

A wall fantastic queer performer. Well getting away with queer phobia doesn't seem like the people, you know who are opposing the conversion therapy bill will do it. We've had trans people coming out and trim despite all the efforts to stop trans people being ourselves, which we know still need tackling. So once or twice we can say that if you try to get away with queer phobia, it will be in the words of Emma wall. Not this time. Thanks for tuning in to out of the pan. Thanks to our wonderful contributors.

Roving and good to have you back again. Once again Milena. I'm Sally Gardner and just before we go out and Melina's said I'm in a happy and positive space a lie. That's what we want. Life's pretty good. Says Molina. Well, let's keep going that way acknowledging of course that not everyone is we need to be there for those people. Let's take it out with Emma Wall. Not this time. I'm Sally Goldner catch ya next week.
