Thanks for your company 3 CR proudly broadcasts from the lands of the Wurundjeri people of the Kulin nation. And we pay respects to elders past, present, and emerging, hello to any Aboriginal and or Torres Strait Islander people tuning in and hello to any First Nations people from all over the planet who may be tuning in. And we acknowledge that all the lands on this large island and surrounding smaller. Ones was stolen and never ceded. I'm Sally Goldner, I use the pronouns she and her welcome to listeners of all genders including but not limited to ladies and gentlemen. And out of the pan is a show covering pansexual issues knowing no boundaries of sex or gender. But today, well, we're not quite limited on genre but kind of opened up today with Billy Thorpe in the Aztecs. Most people I know think that I'm crazy and I think I'll adopt that as my theme song and I can cause I said so and there's lots of ways to get in touch with the show including on Twitter at Sal gold said. So and that's the bottom line. There's also Gmail out of the pan 8255 at gmail.com, you can SMS 6, 1 4, 5, 6, 7 5 12, 15 and look for posts on Facebook on my page, Sally Goldner AM and Out of the Pan 3 CR 855 AM Melbourne. Any opinions expressed on the show, today will be my own and very much, they will be because I the game. There's another teasing hint as to what the content of the show is about. You can also write into PO Box 1277 Collingwood 3066 and the could be there will be content warnings in what I'm going to discuss today. So I will give the numbers for switchboard as part of Q Life, 1800, 184527, And rainbow door. 1800729367 around this so-called Australia. You can also SMS rainbow door will give the extra number today, zero four eight zero. Zero one seven, two, four, six and content warnings for mention of discrimination within lgbtiqA+ community sometimes called lateral hostility, and also discussion of trauma. So, how does this show all fit together? Why did we open up with Billy thought? Because Billy Thorpe is probably extremely remembered for being connected to the Sun Prairie music festival in the early 70s and Monday a week ago, Fortnight tomorrow call it. What you will? I went out to Sunbury for the fabulous lgbtiq. A plus over-30s Festival organized by Tracy, Oldham. Well done to Tracy. Who did an awesome job, putting it all

together and yours, truly ended up being MC. Just for something else to do and also spoke. And I thought today, I might

Broadcast my particular speech and talk about some of the issues. I mean, let's look at something here. It is awesome that we now have younger people coming out although coming up this Wednesday, There's a going to be a presentation by Latrobe University and Paula Gerber on what's happening on it for LGBT in school since 2007 10, when we have the postal survey have things been better or worse, or stayed the same and there's nights.

Great that I think obviously it's better that you can camp. If you can come out safely it is better that you do. So I think you know it's much easier to be yourself than try to hide. I think that's been well documented. And now as I say so long as it is will say safe comfortable positive used, whichever kind of sort of words you want. However, what about people in the middle and Senior cohorts who sometimes, get forgotten? It is great that we look after our youth. It's great that we have seniors

Stuff, that's important as well. But this, that this is why I think this is sort of this, this event that we had was very important because sometimes the issues of older people and those in the middle cohort, get a bit left out. So it was really good to go and talk at this presentation and go out to Sunbury and the music theme today just to click the clear up that particular teaser.

Is that all the music will be bands? You played at sundry between 72 and 75? I went to a clearance sale for a retro store yesterday and I think it's son rubbed off on me big time. So we will have lots of great music of that genre. Anyway, let's go with the first half of what I had to say where I will talk about the first part of my life. So I will say content warning for school bullying. And

Yes, it of queef. I be a generally but there is a point to at all when we'll get to the second half. So let's have a listen. I'll be speaking without moving my lips here. He was at somebody on Sunday or Monday the first of August. So we're going to get back to it.

So this next speaker, what known is next speaker for about nearly 57 years. Now, got to know her better over time.

Sometimes I think she's a bit of a wacker but and the next speaker is Sally goldner. So this is where I take. So to speak, my MC hat off and you get beanie here. But anyway so very much we acknowledge that we're on our own country. We were wrong lands and pay respects to Elder's past present and

And knowledge. Any Aboriginal and Papyrus guide on the big bully, the road

So I'm going to talk just a bit about my own experience. I mean it's got 20 minutes and how we put nearly 57 years of 20 minutes. Is in those Immortal words. How do we do that? That would make trade pact program. So I can only focus on bits in our time that I have some things that I'd like to talk about will give a Content note. There's mention of verbal bullying and emotional trauma. Only mention, and I hope

Being context and for racing.

So as I said I'm 57 in October and I really feel like my life is in a almost a spot of two halves for the astrological though. The most assists to session returns of about 28 hits each, so 1995 27, April, 1995, and my 30th year was when I first heard the word transgender as it was there and you might say, Well that's

Long way for what happened in the first half and it is important to talk about that. In the context of I'm going to go shorthand rainbow seniors, but also interestingly rainbow, I'm going to use the rough phrase Milko for roughly roughly 20 25 to 60 pound. There's no clear boundaries on this. We don't like fineries in our communities with that, gets the on Bose. So the someone born in 1965

I've we had no internet telegrams of those things that were Bits of Paper, and some of us will remember them, you know, sort of it at weddings, you know. Congratulations on your big day. Stop wishing you. A happy life, stop Mountain money, right wing out. That's not that sort of other telegram, the nice ones. But the thing is, we didn't have internet. So as I was growing up and began to feel like something was a mark.

We couldn't put something into a search engine fine. Feel like I'm like girl I could be attracted to anyone regardless of gender not that I didn't have search engines, and how I sent a telegram I don't think I'd have got an answer and I say that because the first part of my life as it one is not for me Rambo people. I spent I knew there was something a mark. It wasn't, you know, we often get asked in our communities. We did, you know, something well this to two parts for that.

I think about four years and three months first day at school, stand in that door off first class room, looking into almost wanted to go all the way back to mom who is 10 meters behind me. Because I spent all of my 13 years. It's all about calls, still calls itself. I'm going to drop a happy teaser. There's this story. Does have some happy and bees and what pulls itself. An all-boys

school I probably don't have to say anymore to people here to know that. That was not a pleasant experience.

Variants particularly in the 70s and 80s where there was just no focus of really in that in the stuff of gender, sexuality of similar of respect and equality and all those sorts of things. There was a lot of emphasis on sport, it was the standard Cricket football bit of Athletics. At the start of two, three back to Cricket. I have been wearing glasses for most today, that's not because I'm short sighted, not be

Cuz I'm not side. My eyes are not in Stereo. My left eye goes over there. Where's my rider goes over there? That is not good for making reflex decisions about batting at Creek time. I made up my mind, could even see the damn thing. I was like, we talked my best, Tony Gregg boys, that all came to be very important. And there are was gone. This is what. I didn't know how much of an emphasis have had on the sport until I met a few years ago, I was about 10 years ago now. I think we're

The principal passed away victory was in the age and his big plan for the school but still in all the sports championship. So everyone had to do sport not good. It was going to be that would Market the school out building boost morale in which except if you're good at sport I was also a novel. Just mentioned the content that again, verbally bullied. The most of what is now you seven and eight. And if I say informs one into lots of people here, people understand that. So it wasn't

A happy time. And I say that because scars remain noticing with the title of wonderful and they cover page and all and the back cover of a wonderful book in the blurb, over there for Tracy's book. And now sometimes they heal. Sometimes they don't to fast forward after I finished school in 1982, which is significant and I got teased, I finished school, I went to University. I studied Commerce majored in a

And people to make me now say you, you are awesome. Captain's this, like I won't make any stereo type of typical jokes. They're having a personality. I never said that.

And I can't remember if I wore a brown pinstripe suit, for my own self in the eighties shopping stuff and all of those brown spotted, the ties culture with a capital K, but I think Greg did studied accounting tried working in corporate settings, which are just as much simple language, toxic masculinity and that brought me up to 1994. We are burnt out and I traveled overseas and that was where I went to Graceland.

Disturbing back to our ability, really comments and I'll start the things.

But like so many of us when I got back to shore the burnout of gone but without coming that day to day surface pressure. What I've been pushing down bubbled up and finally on 27 April 95 was where I found psychologist. You knew what she was talking about. You just completed a master's in gender and sexuality and her exact words to me, which was someone assigned male Woodward's pretty reasonable sum of many more feminine than masculine summer.

Just a female that strands Diva now, of course, as an educator to don't use a much more comprehensive definition that the cover, the sign, female cover behind that. We only got two but it clicked.

So after going south of the 29 and a half years, we hit the brakes and began to come back. North and in that time, it's really it's a life of two hops up until now and I gradually found my sense of self. I realized that I came in somewhere under the trans what we call today, the trans and gender diverse. Kaleidoscope I live for two and a half years, occasionally going out as a woman or use the term crossdresser and every turn

Salad. Please. Let's get back to you. Some people don't like that nowadays and I think that's really important, a fabulous person who is non-binary intersex code of Smith from Canberra. And remember this, it was the last session of the last conference before the pandemic in January, 2020 Better Together said The more labels we have the better because people will connect with the one that works for them in here and so someone not but I do use the word I could.

And sexual it just hadn't resonated. So I sorted that part out over firmed. My gender identity permanently by the middle of 1998 and was really myself and real life as opposed to any former occasional performance. I've identified as a woman ever since I also had to clarify or become authentic connect to my authenticity reset actuality in the work that I have in 1997 was bisexual and the reason I had a better time,

Coming out as Bond. And a lot of people, there was a person who helped me connect to that psychologist and keeping a chalk for time. It was biased, today's language a cisgender by woman who I think began to realize what was going on. But you let me find my path in my own time and I'm going to jump forward actually only distinction during the pandemic she disappeared out of my life not long after I managed to track it down on Facebook and finally had a chance in 2020.

T the thank her because I don't think I'd be here today without it. So important that we have allies. There's another huge in. If I was doing what I call, if I had an hour, the extended Dance, Mix personal story, not the radio, edit its. We've got today, there would be on CD or a record. We can all remember those to see. I love intergenerational learning.

I talked about other things, how had to become authentic, in terms of one Euro processing, despite what people think I'm an inch of it. Introverts are not shy. We're not answers. We just need time out ourselves occasionally better. Now, introverts often appear very extroverted. When we're talking about things, we're passionate about. So I'm probably peering extroverted or today because I love

Things like this today being the MC talkin communicating with. I'm deliberately specific my words day and gradually I've cleared through things, one of my favorite book title and it's a downward book. Two is the one by Anthony van Braun called a life of unlearning, so much to keep unlearning. We've all got it. We all don't know what we don't know and that's really important.

Aunt. A gradual of work through that. There's been lots of other stuff that I could talk about.

Plus, it would be a happy ending on the school staff and I gave a hint 1982. It's exactly 40 years. Since I just see, I'd only really kept in touch with two people from year 12 and also those to spice. It was a double connection, we wondered exactly the same course of me at University in another dude arts and we'd making lunch time. There was 10 assigned male people and we talk politics in the cafeteria with a calf caucus.

I have some herbs, some people would say with cactus to using all political joke, dude, anyone know the difference between a caucus and a cactus?

No difference. They're both full of priests anyway. Height, all the Labour party here. We like people here. We love you, seriously.

The interesting thing happened viewing, said earlier this year, I reconnected because one of the caucus who had gone over to England to leave, have relationships came back and another business. If we're all getting together for dinner at saving before or five years drifted apart as we do and long behold, full game reconnected fix the football with them. But then interestingly, only a few weeks ago on a Friday night. Another one who now lives in Ballarat,

Simple carbs, Ballarat for drinks. And that's be. Why should he have to travel down to Melbourne all the time? So, we did, and at this event, one of my to school friends said, much to his surprise. He decided to go along to the official 40-year reunions of the school because he didn't really want to keep in touch with people. Now, in that bullying, period, there was a chief pulling into deputies. While behold my friend got talking to Deputy bully going be and they expressed some room.

Course. And also brought up another story said, I wasn't put sport one that playing R&B. Like my it's always Australian Rules. Some big tall guy who's really good at rugby. We've forced to doing in physical education. Ran through me, head berated, me room, we afterwards, for being stupid. I've also put the content noteworthy of content. No, ableism call me. Uncle short for uncoordinated.

Well, there was another nice guy from school. He said I was really annoyed the way that that person spoke to Sally didn't pass name, very good and I was so given that big tall, dude, a piece of my mind. So it's left with these two stories and then I was also reminded of one good teacher at school later on after is seven and eight who always came out as to Once people left year 12, you couldn't tell people at school, of course, in those days came out as gay. So that is Friday, a few weeks ago away chewed over this.

A few days after that Deputy bleep be had tried to connect with me on LinkedIn. A few years before. So I wrote pre wrote a letter and then came back. Found it connected and setting the letter and he apologized for what he did. Similarly, I never thought I'd do. So I wrote a non-public about school at wasn't, I don't blame the school, it could be any so-called for boys school. If that a Time,

I wrote to the old rifle grammarian society, which if you had said to me five years ago would have done that. We've said it blow into the bad driver. And said, look, I'd really like to talk to teach X and student. Nice student of the school in W and within two hours late call in every connected, which is pretty awesome.

And what amazing. So closure doesn't happen very often but what it doesn't happen, very often. I'm going to pause my story there. I've got about another just under half of it to go. That was a slightly longer segments to set it up for what needs to be really talked about in the next segment, you're listening to out of the pan with Sally Gardner, and a talk that I gave at the Sunbury over-30s lgbtiq a plus event.

Had a message in, from wombat who says that I do. Make a good MC. Well, thank you and listening in from Trafalgar. Hello to everyone in Regional and Rural Victoria, which is just as important to the city. And also, I suppose sometimes get left.

Hi, and I have talked about people feeling left behind, and when I analyzed the talk in the next segment, but let's code to part two. And I will say content warnings here for descriptions of discrimination, within lgbti communities, and lateral hostility, and let's have a listen to part 2 of sadly at Sunbury. So, the context is drawn, I know,

One supported me at school, no teacher. No student during that. Bullying. No. Authority. Figure. The feelings that got buried deep in me. Were abandoned and mistrust.

And how does that connect to the dice story of please? 30 class.

We faced a lot of stuff we're over coming up which is good. Life overall is better, but I do need to talk about the proverbial rainbow elephant in the room. We often also, he talked about allyship and people think that's people who are none of the Golf GTI qa+ being allies to lgbtqa+, and that's true. But it's also allied ship within and across lgbtiq a plus communities.

And or for me, the light, Andrew take our the hunt you do is Flash. We haven't done it that well football. I could. If you wanted to be a member of Mardi Gras in the 80s and 90s, and you put down by and your application form,

Your Port the 40-pound saying, are you going to are you really a closeted hit for sexual? He's going to sabotage us. That's a pretty nasty thing to say someone who put a book, gay lesbian or homosexual heterosexual quickly, as saboteur.

We haven't received an apology. We haven't got closure from that.

And the problem is when this sort of double standard stuff happens today hurts. It brings back the trauma. We need to do a few things there. In light of what was said about action earlier, what are some actions that we can do?

And the thing is when it comes back again today that did happen a few weeks ago. A this is public information to their eight Hans pride in Diversity Program promoted their next pride in diversity conference and see if they want to talk about. I'm going to say content, no to raise your and patronising they want to talk about emerging communities, like, by pan and non-binary.

Emerging know. And yet, the problem is that some of these so-called mates, people who claim to be allies, who claim to be inclusive are not doing it well enough and for me it brings up that trauma, those feelings of Abandonment. And mistrust again,

So this is why, and I'll be fair. Also, there's a double standard within the trans Community. For example, content note you're not a real trans woman unless you've had surgery or are aiming for it. And that's Malarkey, you feel in your own, pejorative of choice, for a moment.

And we don't do anything systemically about this. So what actions can we do? We need people to be allies within and across lgbti and we need it within. If you hear someone say something that is clearly biphobic or transphobic or misogynist and if particularly if that person is known to you as a gay man we need gay men to do that because sadly the misogyny is a means some gaming won't listen to women in the first place.

We need lesbians to try to talk to these gender critical lesbians and save, you realize your selfishness and lack of your property because they won't listen to us. I respect that. People are traumatized. I understand that, but the problem is, when our people in positions of influence in our own communities, are not looking at themselves, not growing themselves, not recovering from their own trauma. They are projecting that, former on two groups, like buying Trends and we're feeling left behind.

I was abandoned and further behind with her nothing from federal Alp since I've been elected, not only that no measure of support for Trans despite all the nonsense. We need that allyship at high levels and that is something that you can do to energize. I like the word energized by combined. Transcenders, my guess is, it might be the same for intersex and I. So I won't speak for a group that is not my lived expertise. And we also need all of our services and

And not just counseling type of services. We need our community organizations to operate in both strategic and their values. Their strategy, their operations to take a trauma-informed approach, internal in their day-to-day work. We often model our organizations on corporate backgrounds. That's not the right approach to any traumatized community.

And that's why I plead with you today to do this, allyship to do that lifting and respect the both. I think Jared and Andrew talked about that, make sure that we get this done. That is how we can strengthen each other.

I've had to talk about it, difficult topic today, if it is difficult and please talk to some of the services that we have. Today we'll talk to your supports 1-800 1845 2740 like including switchboard around the country. I chose them to speak about it because it's been silenced too long. I felt gaslighted, I felt under firmed. I'm going to start talking about it, it has to happen. It needs to happen. It must happen.

And we need to hold our so-called lgbtqa+ communities. The barely got their head around lesbian to Greater account on how they're doing diversity.

We need that for all the organizations here today. Be aware of understand when someone yells at you, it's not because they're not asked your abusive, it might be a traumatized response. I admit that, I've done it. I'm trying to clear it, but no scar, ever heels 100%. But at least, let's start by opening the Old Wounds and heal and I close with the motto that I try to put into practice every day of my life.

I'll share it with you. Ask yourself every time with every action, you are doing, and most importantly how you are doing. It is coming from a place of climbs that way, we can heal, trauma, strengthen each other individually, and collectively, and Beyond rainbow communities, as well. She's quiz.

There it is at Sunbury and I'll come back and analyze that and clear up a few small points and talk about some of the other great speakers on the day. That was the first of August out at Sunbury in the next segment. Let's keep the Sunbury themed music going. Another band had played at Sunbury from the classic 70s. Rock era was skyhooks and well, the Lalo's as they now are lgbtiq liaison officers were there on the day. So tongue

Firmly in cheek and out the other side. Here's a track for them. 3cr 855 am 3cr Digital 3cr Dot org dot U 3 CR on demand out of the pan with Sally

Hello.

The 70s, the classic rock of sundry is our theme for today, given that we're talking about an event that happened in Sunbury on Monday. The first two books, 2022, and that was skyhooks. And that was from one of their, many compilations, the latest and greatest women in uniform prior to skyhooks. We heard from Daddy Cool. Hi, honey, ho. So let's analyze. All of what was said there or break it down. There were I don't do wordperfect speeches. I hate reading. Totally.

Hate speeches, suppose I have to do them sometime, I just don't think they're very heartfelt to. There were a few things that might have, you know, sort of the words went the wrong way, but don't really care about that. The question, I suppose that comes out of these who defines allyship and it's of course, up to the group on the receiving, end to decide what they want. And if you can't support that, you don't support it. Don't call yourself an ally, but you don't get to give yourself an ally badge as someone who's sort of In The Middle on this, who's by and chance.

His copter nonsense from Gay and Lesbian and I was elements there of to be precise. I was speaking in the first person on that occasion and someone said something to me recently when you do have a chance to speak, that's where you can do that but I'm not speaking as much in the first person, now, as a radio presenter, so you've then got to be in the middle and say, well, what about people of intersex experience? Well, they will Define what they need and obviously, they intersect people of intersex.

Are best suited to do that, and that makes sense. We've got the details of lived expertise and nurse coming back. If we just going to be one dimensional for a second, no cisgender person

can speak for Trans. Even if there was somehow 100%, right then there's an attitude of of that's patronizing. Can't trans people speak for themselves. Well yes, we damn well can and similar people attracted to one gender should not be speaking to buy for by because that's probably what happens when

You know, sort of end up with the sort of poor wording that Akon came up with, but it certainly doesn't excuse. What the, what Mardi Gras did some years ago and I'm once when Mardi, Gras was promoting something by themselves. I said, when are you going to apologize? And they said, oh, we've got a by float in Mardi Gras. Now toxic positivity, isn't the answer either.

Can't Ignore people's feelings when they're pooped on the way that they have been, oops. So very, very important that we do this.

At that we do acknowledge these things, I find it interesting that for example, gay men will ask for an apology from a parliament for past criminal convictions and rightly so and that affected, it virtually anyone assigned male having sex with assigned male to use our language but they can't apologize to bi and trans insecurities. Well if you're a community leader deal with your insecurities, that's what I was brought up with this vague idea. I'm going to be going to sound like a 56 year old.

Old, get off my, get off my lawn. What happened to ideas? Like take responsibility for yourself. Think of the consequences of your actions. Think about people other than yourselves, well, that's what good leadership as opposed to misuse of power leadership dance. And it's time that some of our gay and lesbian leaders, perhaps had a look at themselves and did some growth particularly those in some of our large organizations, who in my opinion are holding us back and they are not moving past their own issues.

Shoes. And this I still I think, deep down there is a tendency to think. I'll we got marriage but that was all very hard and very exhausting and now we can fall asleep. And look what's happening to trans people facing biased media and all the rest of it. I will say that I'm hoping to get on the show in a couple of weeks, the editors and authors of a fantastic new book of trans anthologies, which is aimed at the proverbial mainstream and watch this space.

What about the great speakers on the day at the over-30s rainbow expo at talk Sunbury Jared man. Sir the commissioner for seniors, Victoria talked about as I said about respect, people like Andrew Rogers from Val's. We had a great performance as well from the rainbow choir RT. The do did you Saga? Who's from Elder rights advocacy? We had two of the lows. Gabby Tire can Kim Cowan. Meredith Butler from switchboard and out and about unfortunately, Max Prima.

Isn't there in Max. I hope you're coming back to the best possible Health, Peter stub, spoke and got to say it, my old partner in crime, the to Sally, Sally conning spoke and brilliantly. As always as well, the to Sally's, it's good afternoon from her and it's good afternoon from her and then we were able to do all those dagi 70s era jokes because we could but seriously it is really important that we understand differences in the experience of

Is across age groups, older people may not have been able to come out as early may have a backlog of emotions and feelings and we've every one of us. Every all eight billion of us have stuff as a person, and that can get buried under things, like, sexuality and gender and just to acknowledge, but I won't speak for anyone. Haven't had a chance to read this article in full. Today's Guardian update has an article called gen Z isn't morning the past. We're trying to redeem it by Bridget MacArthur and

Richard is one of the is a freelance writer and host of three see, ours, chronically chilled program, which goes to air every Wednesday from 6:00 to 6:30 app, show that facilitates discussion and explores topics about chronic illness disability, and mental health, and Bridget hosts orko presents that along with Mary Jo and a key. So make sure you check out all the great shows on 3 CR. And I think that's the sort of thing we need. Where we talked about

And sort of intersectionality. I mean that is not. Let's say a queer specific show that is obviously lots of intersections with queer issues. We know that due to discrimination and things. Squeeze can face mental health issues. We have disabilities. We can have chronic illnesses and so great crossover. They're so good to see a three. See our presenter, getting a Guernsey so to speak in the broader media. So

There it is. Lots of great speakers but I think it's for will say health and support type workers, be aware of lgbti issues across age groups. I think that's really important, be aware of discrimination within lgbti. Say this in our work in aged care. You know, someone comes out, let's say as trans. Oh, look, there's a guy at. There's a gay and lesbian group of gays and lesbians and they might go, no, because their face nonsense and some of us have

And it's a bit about treating every individual as an individual and with kindness. And yes, we need the good gays and lesbians to start doing that. Ally work for groups like by trans intersex and ice and we need them to do some of that emotional labor of calling out the fire able to the not so good ones who are definitely there. Let's have a couple of messages and then come back and wrap it all up on the show.

And you're on 3cr 855 am 3cr Digital 3cr Dot org dot EU 3 CR on demand out of the pan with Sally.

So, it's up to us, the people.

We need a treaty in this country. We need the end to the war in this country, and the only way we can do that.

Is through a peace treaty, not the one that you see in Victoria, not the one you see in Queensland, not the one. You see in the Northern Territory because they talked treaty and still lock our people up. They still kill our people, they still desecrate our land and our water.

Attorney maintained a treaty means equality and a treaty means Justice. Thank you.

Enjoy the show. Hope it's given you some food for thought and all that sort of thing. And what else has been going on? Well, through the reason, we have this show and try to put across issues that don't get explored in mainstream media and it's really good that in the article by Bridget MacArthur Bridget and I don't know, Bridget's pronouns, so I won't use any

And talks about some lgbtiq A+ issues in part as one small. Part of that article and says that, I'm just looking for the little spot there. And how can we be the most says, quite how can we be the most likely generation to identify as lgbtq Ikea, plus an advocate for rights. But then the one of the criticisms of Jen's eaters is they want to go back to the 90s. And then they say,

How would we, why would we want to go back to the 90s when same sex, marriage was illegal, and Alan was booted from here for being too gay as opposed to other things and condolences to Anne Heche, by the way, and or to family, and friends after a difficult week. So I think that you know, we don't want to stereotype any generation. Let's just look at each other on the merits and let's all try to keep doing better. I suppose is the approach that we could take. I've got to move out of here as I say, Make Way for freedom.
